Introduction

Storing critical data solely on your computer is dangerous! Backing up your files to an external drive is a good idea, but what if your house burns down? Or you are the victim of a burglary? Restoring data is very difficult when your hard drive is sitting on a flea market table for \$5.00.

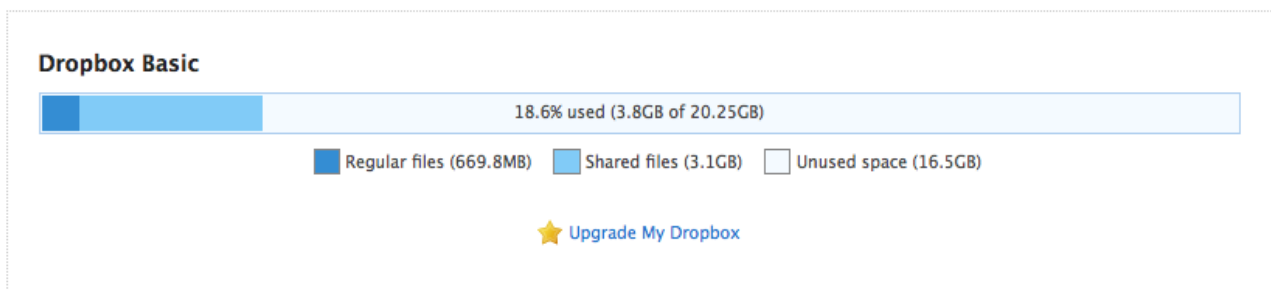

The obvious solution is cloud storage. Cloud storage is simply a collection of computers and hard drives in a data center somewhere in the world. Cloud storage services (IE Dropbox) rent space to users in these data centers. The advantage being the data centers have redundant power supplies, rigorous backups, tight security and full-time technical support. Data is far safer in one of these data centers than sitting on your desk!

Dropbox currently offers a free, 2 gigabyte account, but this is really quite small. Most users music collection fills more than 2 gig! Dropbox offers larger storage plans, but they cost upwards of \$100 per year! There is another option for those that just need a few extra gigabytes. Earn free space

This book is a manual for earning extra space on Dropbox using bonus programs and referral techniques. Some are simple, others require a little work, but remember that the extra space is permanent and free!

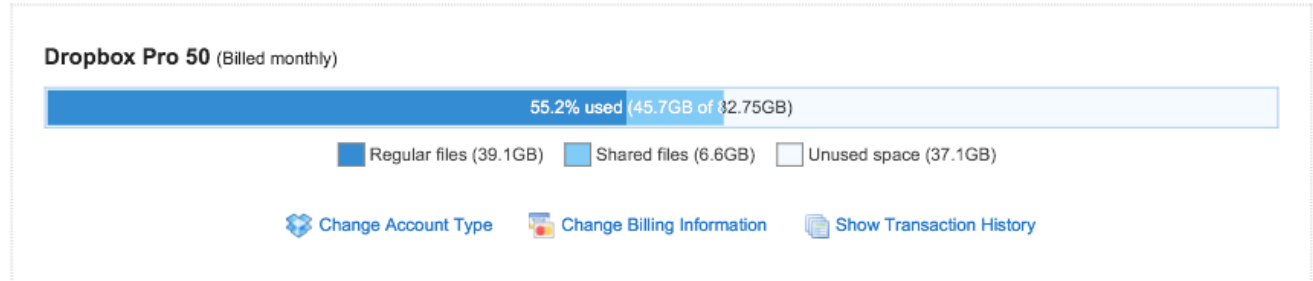

Just take a look at a couple recent client's Dropbox accounts. This is a free Dropbox account.

Account Overview

This manual works even better on a paid account. This client earned 32 extra gigabytes!

Account Overview

Gigabytes of free space forever is well within your reach! Read on for the details.

Tip: *Work your way through this manual in order. The further you go into the book, the more work that is required to earn space. Some of the easier techniques may earn sufficient space for your needs.*

It is possible you have already completed some of these free space earning activities, if so just move on to the next one.

1. **If you do not already have a Dropbox account, go to <http://getdropbox.com> and sign-up! Once you have the free account set-up, move on to step 2.**

2. Earn 512 Megabytes in 10 Minutes!

Open a web browser and go to <http://www.dropbox.com/free>

You will see the following page. I will work through each option below the graphic.

Get extra space free!

Complete these simple tasks and instantly boost your Dropbox space!

Connect your Twitter account with Dropbox

128MB

Connect your Twitter account to Dropbox and get an extra 128MB bonus.
